

# November Begins 'Driving Safety' Campaign

In conjunction with 'Shell' the Industrial Safety Department is promoting the **Count on Shell** driving safety campaign.

As part of this campaign, Industrial Safety is offering several booklets that provide driving safety tips we believe will be helpful in many emergencies. These series of booklets have been written with organizations such as the National Highway Traffic Safety Administration, the AAA Foundation for Traffic Safety, the Federal Highway Administration, and the National Safety Council. The booklets contain excellent safety tips for all family members, especially young drivers!

To learn about handling hazardous driving situations, look for the following booklets on the SHE Web page: (1) Deadly Distractions, (2) Breakdown, (3) Driving Dangers, (4) Alone Behind the Wheel, (5) Kids in the Car, (6) Sharing the Road, (7) Crash Course, & (8) Foul Weather. You can print the document from your computer (it is not copyrighted; visit SHE Web Page <http://inside.msfc.nasa.gov/SHE/> for information) or obtain hard copies from the Industrial Safety Department. Pick up one for your family or several for an office safety meeting!

SUGGESTED TOPIC FOR THE MONTH: **Driving Safely**

## **SAFETY/HEALTH/ENVIRONMENTAL INFORMATION:**

Marshall Star – Articles on VPP Activities and 'Spot the Mascot' Contest

**Daily Planet/Weekly Bulletin** – Safety Shoe Van Visit and Driving Safely
